

# College & University

## Better for You. Better for Them. Better for the Planet.

Tap into our extensive portfolio of versatile, speed-scratch ingredients to quickly craft craveable offerings for your students that meet both their nutritional and ideological needs.

### Better-For-You Labels

Younger consumers are driving a surge in demand for cleaner labels, and it doesn't get a whole lot cleaner than eggs and potatoes. Plus, because they are naturally gluten-free and vegetarian, they'll deliver the dietary requirements many students are looking for.

### Better Back of House

Our value-added product portfolio allows operators to save on prep time & increase efficiencies without sacrificing quality or flavor. Anything you can make from scratch ingredients, can be cooked and plated faster with our value-added eggs, fully cooked sausage, and refrigerated potatoes.

### Better Quality & Consistency

All value-added eggs are made with real, farm-fresh eggs. Our potatoes are refrigerated, never frozen or dehydrated, for scratch quality without the washing, peeling, blanching, cutting and/or mashing!

### Better for the Environment

In addition to our commitment to smarter processes that generate less waste, reduce water and increase our reliance on renewable power, we have a portfolio of plant-based products that take it to a whole new level.

For ordering, information, or customer service assistance, call  
800-328-5474 or visit [michaelfoods.com](http://michaelfoods.com).

Through our category-leading egg, potato and sausage brands, we offer on-trend products that bring excitement to every corner of your menu, in forms that will simplify back-of-house prep.

### Value-Added Eggs

From the refrigerator to a plate in minutes! Our Papetti's® liquid eggs, precooked egg patties and omelets and hard cooked eggs are not only real and delicious... they save you time and labor while preventing stressing over food safety.

### Certified Cage-Free Eggs

Expand your menu to meet today's evolving consumer preferences with Abbotsford Farms® Cage-Free Eggs. Our American Humane Certified liquid, hard cooked, and precooked offerings allow you to menu cage-free egg dishes with confidence and convenience.

### Refrigerated Potatoes

Every Simply Potatoes® foodservice product is made from real, fresh potatoes that are refrigerated—never frozen or dehydrated—for ultimate quality and guest satisfaction. Already cleaned, peeled and sliced, mixed or mashed – simply cook and serve.

### Fully Cooked and Raw Sausage

Owens® breakfast sausage delivers excellent taste, texture and performance, and our unique spice blends allow you to differentiate your menu and satisfy cravings.

Bob Evans® specialty sausages were made for a roller grill, but can also go straight into the bun. Also check out our variety of heat-n-serve breakfast sandwiches.

### Plant-Based Eggs

Made from plants, JUST Egg requires less land, water, and carbon emissions than conventional eggs with zero cholesterol and a similar amount of protein. JUST Egg cooks and tastes like eggs, perfect for omelets, scrambles, and breakfast sandwiches.

### Plant-Based Meat

Chef-crafted, plant-based meats. Crafted for the benefit of our health and the earth, our plant-based offerings will rival the flavor, nutritionals and overall culinary appeal of any traditional meat.
