Home-Style Fried Egg Patty

with Cracked Black Pepper

**Freshly Cracked Appearance.
Without the Shell.**

Fried Eggs continue to
grow in popularity

on breakfast sandwich menus.

+12.8% over the last four years*

However, freshly cracked eggs introduce food safety risk and labor challenges to your kitchen, not to mention the mess.

**With our fully cooked Home-Style Fried Egg Patties,
you'll consistently deliver:**

- A broken, swirled yolk with fried egg in every bite
- An irregular shape and hint of browning, just like fresh out of the frying pan
- Cracked black pepper that your guests can not only taste but also see!
