Brand

Portfolio Overview

Value-Added Eggs

Since its origins back in 1908, the Papetti's® brand has grown to become the #1 name in value-added egg products. As a pioneer of the egg pasteurization process as well as a key driver behind the introduction of precooked eggs - revolutionizing breakfast sandwiches - the *Papetti's* brand features the industry's broadest portfolio of **real eggs with real advantages!**

- **Real Eggs** — all of our products are made with real, farm-fresh eggs.
- **Convenience** — reducing prep and increasing speed of service.
- **Consistency** — stringent specifications ensure the highest-quality taste, appearance and performance in every serving.
- **Food Safety** — as the cornerstone of everything we do, when you're serving *Papetti's* brand, you can be sure you're serving the safest eggs possible.
- **Specialty Eggs** —our Abbotsford Farms® brand offers all the advantages of Papetti's® in certified cage-free and other specialty egg formats.

Refrigerated Potatoes

Simply Potatoes® refrigerated potatoes are all about offering you scratch-quality, never frozen, menu options that will impress guests while cutting out the labor-intensive peeling, slicing, mixing and mashing that typically accompanies homestyle taste. Elevate your menu with the fresh flavor, consistent quality, and trusted goodness of *Simply Potatoes* products.

Liquid Eggs (Refrigerated & Frozen)

- Our Liquid Eggs are pre-cracked and pasteurized to make your back-of-house both efficient and safe.

- Choose from Whole Eggs, Egg Whites, Yolks, Low/No Fat & Cholesterol and Scrambled Egg Mixes
- Cage-Free Options Available

Hard Cooked Eggs

- Fully cooked eggs utilizing a rotational cook process to deliver centered yolks and tender whites.

- Choose from peeled or diced
- Cage-Free Options Available

Precooked Eggs

- Starting with pasteurized eggs, we've fully cooked (verified +165° F) each item to ensure consistency and safety, while decreasing prep - just heat and serve!

- Choose from Egg Patties, Fried Eggs, Omelets, and Scrambled Eggs
- Cage-Free Options Available

French Toast

- Made with real eggs and sliced bread - baked, never fried - for a wholesome and homemade taste and appearance.

- Choose from Plain (classic), Cinnamon Swirl, Cinnamon Glazed, French Toast Sticks and more!
- 51% Whole-Grain Options Available

Food Ingredients | Short Shelf Life (SSL) Liquid & Dried Eggs also available.

- An extensive portfolio of bulk liquid and dried eggs are also available for large scale food manufacturing. Ask your sales representative or visit [MichaelsFoods.com](https://michaelfoods.com)

Features & Benefits

Real Eggs with Real Advantages

Our refrigerated liquid eggs serve up the taste, nutrition and functionality of traditional shell eggs, but... do so with added efficiency to streamline prep while increasing safety to protect your guests and your reputation!

Always Ready to Go

No more wasteful cracking, mixing or mess.
Our liquid eggs are pre-cracked and ready to pour!

Conveniently Packaged

From 1 and 2 pound cartons to 20 and 30 pound bags, our packaging options allow you to choose the size you need. Plus, they take up only 1/3 the cooler space of shell eggs.

Extended Shelf Life

Lasting up to 14 weeks (3-4 times longer than shell eggs) our refrigerated liquid eggs allow you to use the eggs you need when you need them - without unnecessary waste.

Formats that Fit

Our whole eggs are pre-cracked. Our whites and yolks are pre-cracked and pre-separated. And, our scrambled egg mixes include all the ingredients needed to cook up classic scrambled flavor.

The Safest Eggs Possible

Our eggs are real, convenient, and also extremely safe. Our pasteurization process ensures we're providing the safest eggs possible.

Save Time. Save Labor

It takes 20 minutes to crack 30 dozen eggs and only 1 minute to open a case of *Papetti's* eggs!*

*MFI Internal Time-Yield Audit, 1 case of *Papetti's* = 2/20 lb bags

Frozen Liquid Eggs > Features & Benefits

[Whole Egg](#)[Egg Whites](#)[Yolks](#)[Scrambled Egg Mixes](#)

Real Eggs with Real Advantages

Our frozen liquid eggs serve up the taste, nutrition and functionality of traditional shell eggs, but... do so with added flexibility and increased safety!

Save Cooler Space. Reduce Waste.

Cooler space is always a constant struggle in most kitchens, so why not remove eggs from the equation? Our frozen liquid eggs allow you to have enough product on hand (ready to use when you need it) without worrying about *wasted* space.

Conveniently Packaged

From 5 pound cartons to 30 pound tubs, choose the amount needed to suite the needs of your unique operation. For added convenience, try our 5 pound cook-in-bags (CIB), which allow you to prep and hold eggs right in the bag.

1-Year Frozen Shelf Life

Stop throwing away unused or damaged shell eggs. With a 1-year shelf life, you can thaw exactly what you need, when you need it.

Formats that Fit

Our whole eggs are pre-cracked. Our whites and yolks are pre-cracked and pre-separated. And, our scrambled egg mixes include all the ingredients needed to cook up classic scrambled flavor.

The Safest Eggs Possible

Our eggs are real, convenient, and also extremely safe! Our pasteurization process ensures we're providing the safest eggs possible.

Real Eggs with Real Advantages

Our precooked egg products include an innovative line of egg patties, fried eggs, omelets, scrambled eggs, and specialty handheld entrées - all made with real eggs that have been cracked, pasteurized and fully cooked, so they're ready to heat and serve!

Cut Prep in Half

While on average it takes 2 minutes and 39 seconds to prep a bacon, egg and cheese sandwich from scratch, you can prep the same build in 1 minute and 17 seconds with one of our egg patties.* Translation... more time for the kitchen staff to focus on other tasks and less wait time for guests.

Consistent Performance and Portion Control

Produced in line with stringent product specifications, you can rely on a consistent food cost, while guests can expect the same high-quality eating experience with every serving.

1-Year Shelf Life

Stop throwing away unused or damaged shell eggs. With a 1-year shelf life on all our fully cooked and frozen products, you can heat exactly what you need when you need it.

Menu & Prep Versatility

Since our products are fully cooked, reheating is extremely simple and is possible no matter the size of your kitchen or the experience of your staff.

The Safest Eggs Possible

Not only do we start with pasteurized liquid eggs, but all our products are also verified at a temp of no less that 165° F after cooking!

Real French Toast

Each serving of our wholesome French toast starts with real slices of bread. That bread is then dipped in a sweet cinnamon French toast batter made with real eggs!

Baked, Never Fried

Unlike most items in the French toast category, we avoid the oil baths and take the time to bake our French toast to deliver a deliciously wholesome menu option with a classic made-from-scratch appearance.

Individually Wrapped

For added convenience we offer several individually wrapped slices and sticks in an ovenable film that is suitable for prep in both the microwave and oven.

1-Year Shelf Life

Take advantage of a full 365-day shelf life when kept frozen to avoid unnecessary waste while ensuring you always have product available when you need it.

The Safest Servings Possible

All our French toast products are verified at a temp of no less than 165° F after cooking!

Real Eggs with Real Advantages

Real eggs that have been fully cooked and conveniently packaged so you can skip the boiling water and tedious peeling, and go straight to serving.

Consistent Quality

- **Smooth, Tender Whites** - eggs are held for a proprietary period before cooking to aid in the peeling process to maximize the product texture and appearance.
- **Bright Yellow Yolks** - stringent cooking specifications ensure our yolks are fully cooked without greening.
- **Centered Yolks** - a rotational cook process keeps the yolk centered rather than resting one side - ideal for deviled eggs!

Extended Shelf Life

Quit throwing out unused product and rely on our high-quality eggs that last up to 77 days (packaging-type dependent).

Convenient Packaging Options

From Modified Atmosphere Packaging (MAP or Dry Packs) to Brine Tubs and IQF Diced.

The Safest Eggs Possible

All our hard cooked egg products are verified at a temp of no less that 165° F after cooking!

Pasteurized Shell Eggs > Features & Benefits

Pasteurized Shell Eggs

Real Eggs with Real Advantages

With our pasteurized shell eggs, you can give your customers the versatile culinary excellence of eggs prepared any style with peace of mind. Serve soft scrambled, sunny-side up, or poached—even raw as in Hollandaise sauce and Caesar salad dressing.

Patented Egg Pasteurization Process

- Reduces the risk of Salmonella in eggs and helps prevent cross-contamination.
- Increased food safety allows kitchen staff to move from one task to the next without having to deal with time consuming safety procedures (i.e. sanitizing stations, washing hands & changing gloves)
- Serve poached and sunny-side up eggs with runny yolks or make signature sauces and salad dressings without any food safety concerns
- Ensures you are serving the safest eggs possible!

Extended Shelf Life & Prep Time Convenience

Double the shelf life of standard shell eggs - up to 67 days total!

Potatoes > Features & Benefits

Real Potatoes

Made from real potatoes & consistent quality ingredients so they taste like scratch. Never frozen or dehydrated- for your fresh advantage.

Performance and Safety

Consistent, high-quality product thanks to over 40 years our experts have spent perfecting the refrigerated process. Prevents risk of injury from sharp knives and reduces risk of cross contamination from pathogens on raw potatoes.

Convenience and Savings

Arrive prepared and ready-to-heat. No cleaning, peeling or mashing. Immediate usability in any culinary application.

Simply Potatoes provide significant time and labor savings compared to scratch potatoes. Refrigerated Simply Potatoes products give you consistent results and dramatically improved yields.

It can take
5 TIMES LONGER
